
Class Information and Course Policies

BASIC INFORMATION:

Lecture: MWF 11:00-11:55 A.M. (Sloan 151)

Instructor: Nets Katz (nets@caltech.edu) Office Hours: W 5:00-6:00 (Sloan 266)

TAs and Graders:

Lead TA: Isak Mottleson

TEXTBOOK

Wheeden, Zygmund : Measure and Integral, ISBN 0824764994

Homework

Homework is worth 40 % of the grade. There will be eight problem sets. Each will be worth the same, but the lowest grade will be dropped. Problem sets will be made available on the Class webpage. They should be turned in by Thursday at 4:00 P.M. in the department’s drop box for Math 108b. They will be returned by the following Wednesday in the department’s pick up box. No late work will be accepted or extensions granted. You are encouraged to discuss homework amongst yourselves but solutions should be written up in your own words. Due to privacy policies, you must submit each problem set with a cover sheet, carrying nothing other than student’s first and last name.

Exams

There are two exams, a midterm and final. Each will be worth 30 % of the grade. The dates and times will be announced. The final exam is cumulative. Both exams will be timed, non-collaborative exams. They will be open book and you may use class notes or any material posted on the class webpage, but you may not use other resources on the internet.
